

Temporary Regulations under Article 17.4 by the CBYS Directors
Revised July 10, 2020

Due to the current COVID-19 situation, the Directors have exercised their authority to regulate the use of CBYS facilities as follows:

- Shareholders must abide by all Government health requirements and recommendations while at the Station, and it is their responsibility to keep abreast of those limitations.
- Shareholders and guests are responsible for sanitizing any common use surfaces that they come into contact with.
- When at the Station, Shareholders must maintain appropriate “social distancing” at all times and not gather in groups beyond the currently approved size.
- The White House, Fahrni Cabin, fire pit, Café and the picnic tables can all be used when social distancing can be maintained.
- Whenever possible, Shareholders should moor their vessels in a staggered or “checkboard” configuration on opposite sides of the docks in order to maximize the distances between vessels.
- The BBQ, the crab cooker and adjacent wash station and Blackstone cooktop should each be used by one family at a time
- These Temporary Regulations apply as well to guests. However, the rafting of guest vessels is not permitted.
- Chairs, tables etc. should not be placed or used on Docks A, B, C or D when the position of the chair or table prevents others from passing safely. The wider “highway” may be used to congregate at an appropriate distance.

- Pets should be kept on a leash at all times when not on a vessel, including on the beach and trails if others are also using those areas at the time.
- The existing Rules regarding use of the docks and shore facilities otherwise remain in place unless inconsistent with the above. As always, Shareholders should remain on CBYS property and respect our Centre Bay neighbours.

Finally, in order for the Station to remain open for limited use, it is vital that everyone comply with these Temporary Regulations (and any future amendments) until the present health situation has been resolved. Any contravention may result in the suspension of privileges at the Station in accordance with the Company's Articles.

Revised and effective on July 10, 2020 until further notice.
